Managua daily names 13 as CIA agents

Nueva Diario, a pro-Sandinista daily in Managua, Nicaragua, published the names of 13 people whom it said were CIA agents working at the U.S. embassy.

The paper published another 27 names of individuals whom it said had worked for the CIA in Nicaragua in recent years.

The U.S. embassy protested the paper's action, saying several of the 13 named as agents had received death threats.
